Surname Files

Instructions: This is a listing of surnames which are currently available in the CAGS Research Library - Surname Files. Each surname is contained in a separate folder identified by the folder ID and surname (e.g. A-7 ALLEN). The number in parentheses following the surname in this listing indicates that there is more than one folder for that surname.

The files may contain research, documentation, notes, and miscellaneous information on the family surname identified on the folder. The files may also contain information on other family surnames which may have some connection to the family surname listed on the folder.

These files are located in the CAGS Research Library and may only be accessed by visiting the library prior to each regular meeting of the Society. The content of the surname files is not available on the CAGS website and we are unable to do look-ups of the information in between meetings.

Disclaimer: CAGS does not guarantee the accuracy or completeness of the information contained in these files.
